**Annexure V**  
**Standard Operating Procedure for Integrations, Enhancements and Customisations**

CollPoll platform is regularly upgraded to enhance the functionality, security and stability of the system. These upgrades are finalised and developed by our team on the basis of deep research as well as the partner institutions feedback. However, we understand that these upgrades may not always meet your requirements. Hence, CollPoll follows a SOP for handling integrations, enhancements and customization requests from the partner institutions.

The partner institution requirement will fall into one of these four categories:

**Category 1: Part of CollPoll Roadmap. Meets Timeline.**

The desired requirement of the partner institution is in the roadmap of CollPoll and is getting delivered within the time needs of the institution. The institution doesn't need to pay any additional cost for such work.

**Category 2: Part of CollPoll Roadmap. Does Not Meet Timeline.**

The desired requirement of the partner institution is in the roadmap of CollPoll but being delivered later than required. The institution has to bear partial cost for accelerated development.

**Category 3: Not part of CollPoll Roadmap. Highly specific to the Institution.**

The requirement is highly specific to the institution and not useful to the larger platform. Such development can be selectively done but complete cost needs to be borne by the partner institution.

**Category 4: Not part of CollPoll Roadmap. Not possible to build.**

The requirement is not part of the CollPoll roadmap and is a separate niche in itself. CollPoll product team feels it cannot justify the domain know-how required or the continuous upgradation required to keep it functional. E.g. Taxation, Lead Management System, etc. CollPoll will not do such development.

Process followed for managing the requirements:

**Step 1:** Partner Institution submits the requirement to team@collpoll.com.

**Step 2:** CollPoll Product team responds back within 5 working days if any additional information is required or not. Also, the team shares which category this request belongs to. If 1, 2 or 3, shares the timelines and associated costs.

**Step 3:** Based on the partner institution's confirmation, concept notes and mock-ups are shared with the institution for written sign-off within 10 working days.

**Step 4:** Post partner institution's written sign off and payment of associated costs (if any), development is started and requirement is delivered as per the promised schedule.
