Faculty Development Programme (FDW) on

Online Teaching Paedology

Programme Report

Date : 20/12/2021 & 26/12/2021

Time : 2.00pm -3.30pm

Topic : Online Teaching Paedology

Speaker:Rushi Durge

Organized by : ASM College Of Commerce,Science and Information Technology
Pimpri,Pune-18

The above session conducted on virtual platform conducted by Asst.Prof.Rushi Durge from D.y.Patil Arts Commerece & science college pimpri , it's a six day online virtual meeting for all the staff members of Asm csit as he given ample of information on canvas, google classroom ,Microsoft Teams,Blackboard Moodles it's implementation and use he cover all the contents in brief as follows

In this time of global pandemic, most universities offer online instruction as a substitute for in-person instruction using technology-enhanced learning (TEL). We have choose "Seven principles for good practice in undergraduate education" for effective online teaching, which scholars highly regarded, to assure pedagogies and practices for online teaching should be a variety of group discussion venues, such as cafés, forums, and conferences, to encourage students to express their opinions, support those opinions with credible sources, and ultimately engage in reflective writing and thinking make sure that Live Virtual Lecture Delivery Software like Zoom, Microsoft, and Virtual Learning Environments like Moodle, Blackboard, Canvas, etc. are used properly like Teams, Cisco WebEx, and so on Also,

it is crucial to guarantee high academic standards and an improved learning environment for online teaching and learning.Moodle, in particular, is supported by a very active community in OSS, so it is known for its reliability and stability. Moodle that we offer through SaaS is a cloud-based LMS, so there is no need for your organization to design, build, and maintain servers and networks (troubleshooting/security measures, OS/software updates, maintenance, inspections, etc.). It frees teachers from cumbersome tasks such as server maintenance and management, and at the same time, reduces costs associated with devices and systems, as well as operational costs. Our engineers,

with their expertise and high level of technology, will provide the service using AWS, one of the most robust cloud hosting platforms in the world, so you can trust us.

And because Moodle is web-based, it can be accessed from anywhere in the world. Teachers, students, and learning administrators can easily access Moodle content from anywhere and at any time. And of course, it is responsive, so it can be accessed on any device, including PCs, tablets, and smartphones.

Moodle is flexible and scalable, and can be flexibly customized to meet individual needs.

Moodle complies with various international standards such as Open Source Initiative, IMS LTI™, SCORM-ADL, Open Badges, etc. It is designed to be modular and interoperable, enabling seamless integration with external applications, platforms, and systems.

GDPR (General Data Protection Regulation) compliant, and with more than 120 multi-language interfaces such as Japanese/English/Chinese, Moodle can be used by global companies and international organizations with confidence.

It is necessary to employ the activity monitoring capabilities provided by Blackboard/Moodle to keep tabs on students activities, such as which contents they visit, how frequently, and when.

We did not use this method when we were teaching as an online teacher, but at the end of the course, we understood how useful these tools were. The involvement of the students during analysis

It was emphasised that the success of online delivery will be ensured if practitioners can successfully demonstrate pedagogy principles, including appropriate direction towards active

learning and teaching methodologies, use active formative and summative feedback, and introduce in-class activities that reflect employability.

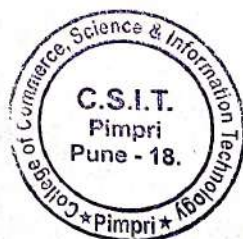

Instructors' responsibilities in this technologically advanced day have expanded beyond the usual teaching and learning to include helping to find solutions to societal issues that affect children, adolescents, families, and other aspects of our life:

This societal issue has brought our young people so close to disaster. Only when the teachers are effective in removing these threats from society can we anticipate peace, harmony, and tranquillity.

Rushi Durge shared these opinions during the "online Teaching Paedology via Google Meet Related to Virtual Teaching" event, which was put on by the Asm Institute of Commerce and Information Technology, 21 academicians attended this session. It was a wonderful session with practical assessments and demo really very much useful to all the teaching staff in pandemic era.

Moodle 4.1 sandbox demo

Welcome!

This site is a plain installation of the latest stable version of Moodle using the Boost theme, currently Moodle version 4.1*

Use one of the following demo accounts to log in and play with it:

- o admin / sandbox
- o manager / sandbox
- o teacher / sandbox
- o student / sandbox

This site is reset to its blank state every hour, on the hour.

To see a more interesting demo site with more realistic content, visit: Mount Orange School.

*Earlier versions are also available:

- o Moodle 4.0 sandbox
- o Moodle 3.11 sandbox

Available courses

This site will be reset in 23 mins 49 secs

Try Moodle

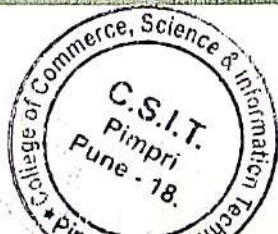

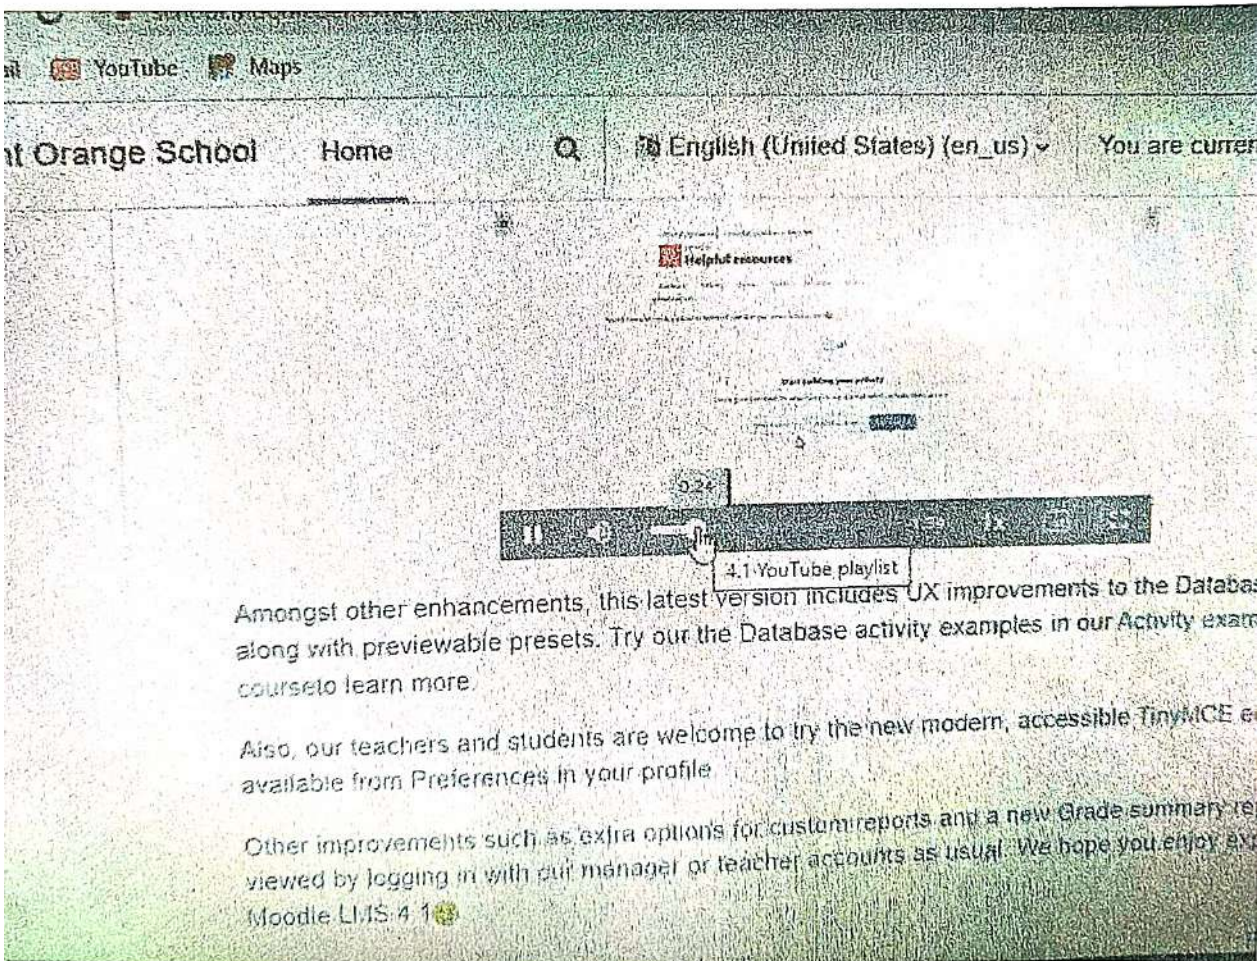

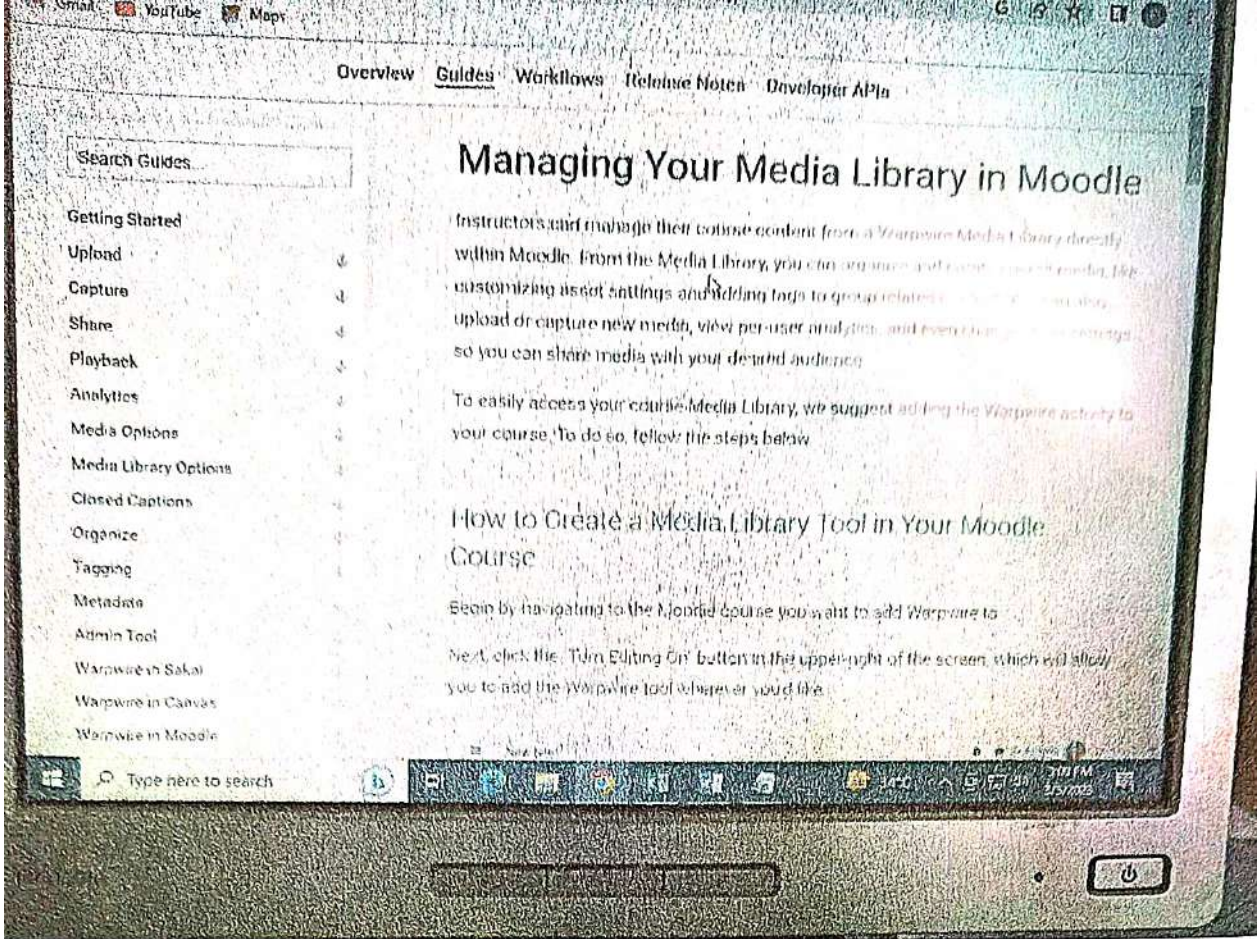

Have fun with Moodle. Try it in our demo school or in the sandbox environment.

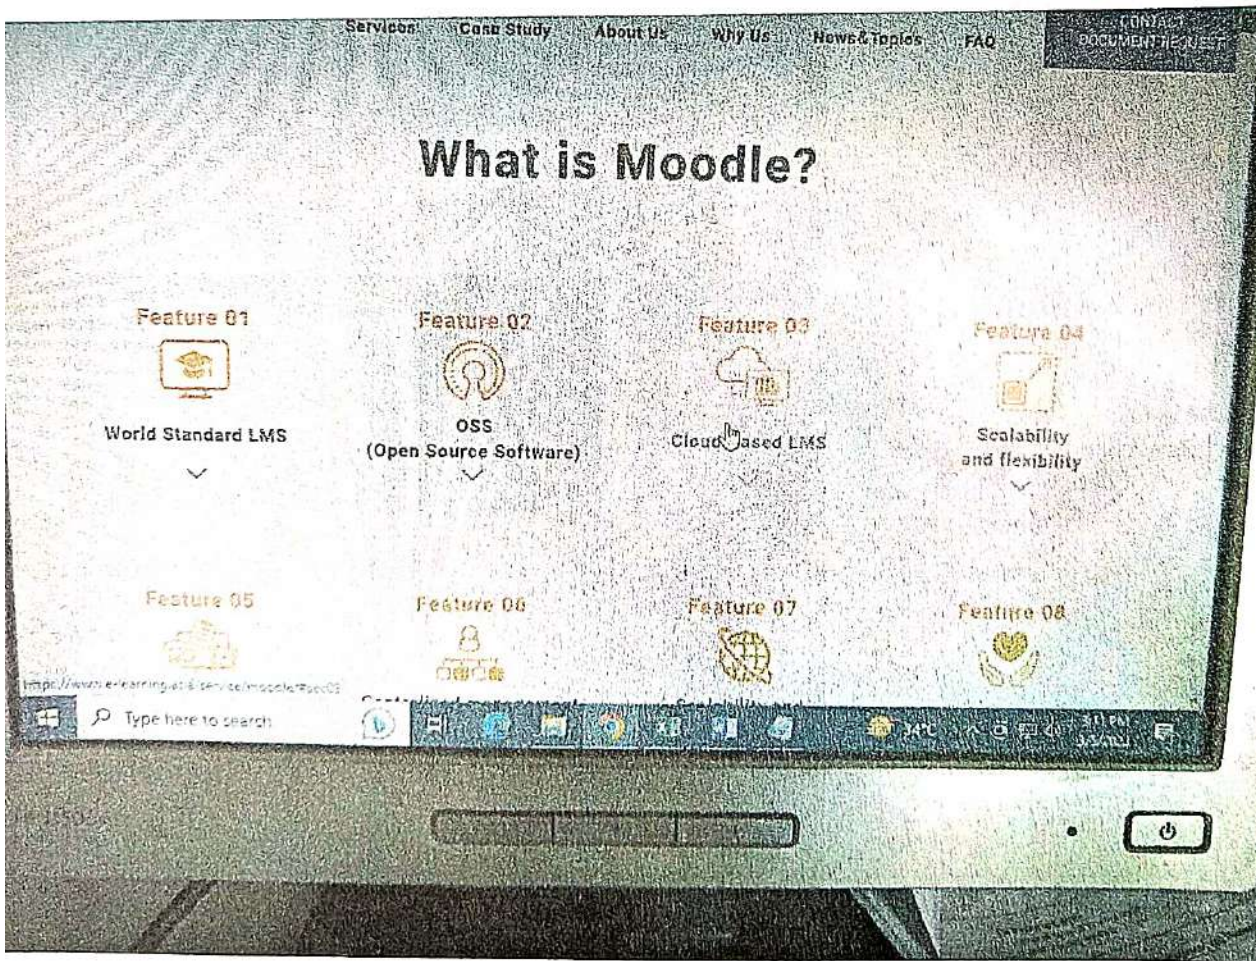

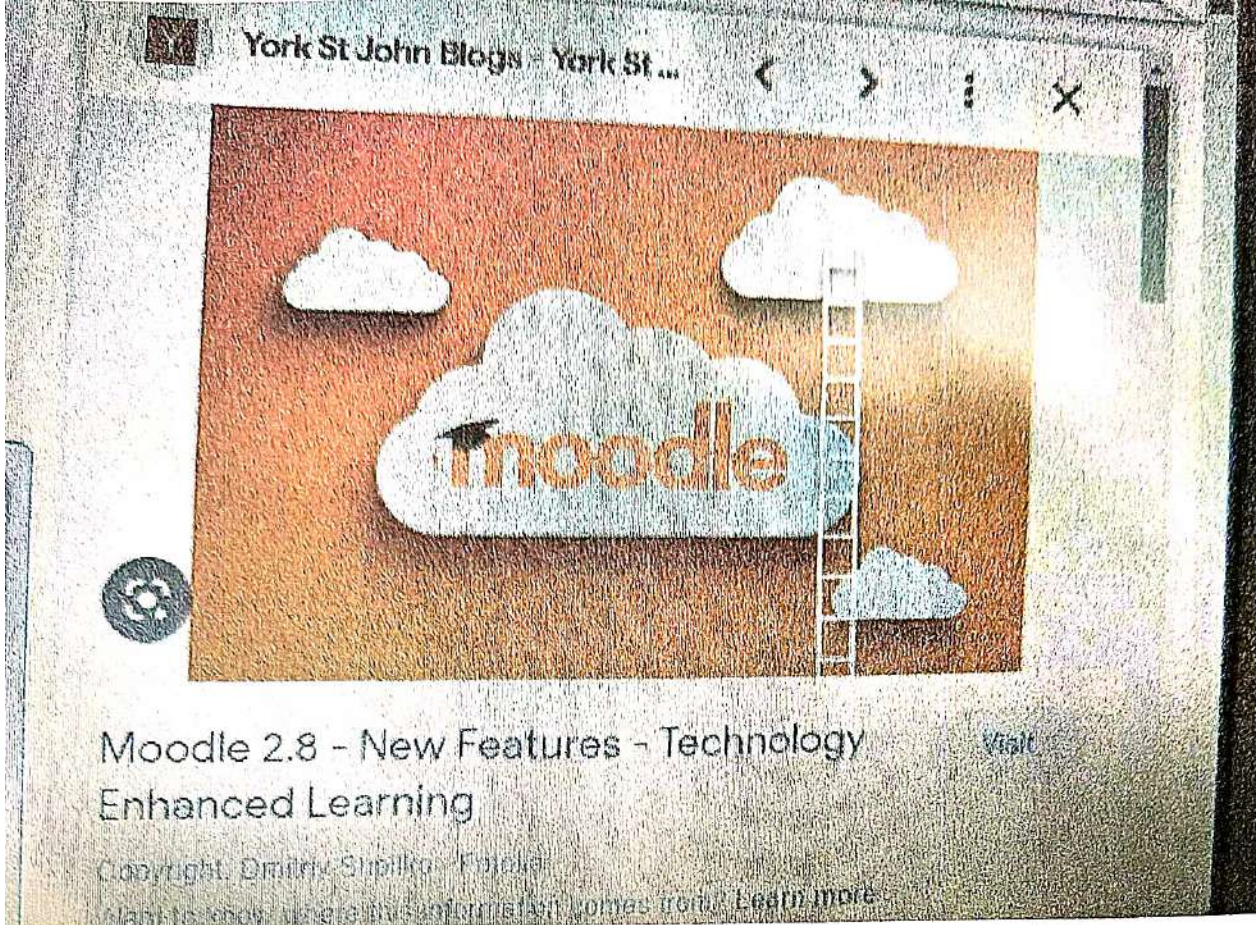

Each demo site is reset to its blank state every hour, on the hour. Other people may be using the demo site at the same time as you; this can result in unexpected things happening. We cannot be held responsible for any content added to a demo site by other site users.

Programme Report

Date : 15 to 21 April , 2022

Time : 2.00- 4.00 pm

Topic : Android Programming

Speaker: Mr. Satish Mulgi

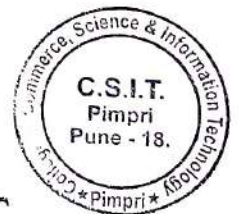

Organized by : ASM College, Pimpri

ASM's College Of Commerce, Science and Information Technology, Pimpri, hosted a workshop on Android programming from 15 to 21 April, 2022 in collaboration with Mr. Satish Mulgi , An Android Expert, all the teaching staff of ASM's CSIT College attended the workshop

On his opening session, Mr. Mulgi introduced the teachers to visual programming and MIT App Inventor. Teachers were guided for creating App Inventor account and set up their Android devices for development and debugging. On the second day Introduction to the development environment was given with the help of examples and demonstration. On third Day of the workshop, intermediate Android programming concepts were discussed. On fourth day he introduced us with some advance concepts of android programming and its application . On fifth day The participants learned various applications like Pet the Kitty, Dice rolling, swat mosquito, storyboard etc. On last day of the programme Mr. Mulgi guided us on how to package, distribute and publish an app on play store

All the Teachers enjoyed this three day programme and gave positive feedback. The concluding speech was presented by Asst. Prof. Pooja Nawadkar who expressed gratitude to Mr. Mulgi for accepting the proposal for taking the workshop and appreciated all the staff members for participating in programme
