centric
Methods

**E-Resource, E-library, Self-
Learning
laboratory.**

Blood Donation, Karate Camp,
Fun- Fair, Eco- Friendly Cultural
Camp, Charity Programmes.

Research and Development:
International Conference on
On-Going Research (INCON)

Student Centric Method

- ▶ The College has structured a well-defined practice for the all-round development of the students tuning with the vision, mission, and core values. Right from inducting the students with colleges' academic structure they are parallelly trained with other additional skills.
- ▶ Institutions with their distinctive policy of having global exposure to the students in academics especially in teaching–learning approach must be in sync with the other policies of the college.

Industrial Visit, Student Counselling, and Carrier guidance:

- ▶ The institute not only focuses on the theoretical learning but also believes in practical application of the theory as well as exposure to the field of knowledge. So, it organises industrial visit for exploration of different subjects.
- ▶ Another aspect for evaluating and encouraging students is by providing counselling sessions and carrier guidance. Regularly the institute organises carrier guidance session with the experts from different professional backgrounds for exposing the students on different carrier avenues.

Industrial visit documents

Students counselling and Carrier Guidance

Case Studies, Assignments, Guest Lectures, Seminars, Peer Teaching, and Training Sessions

- ▶ Very rigorous and multiple methods are used for teaching and learning as the case study preparation and evaluation, written assignments, model making, organizing seminars on different issues of health, societal, civil values etc., and training sessions with the experts both in and out house faculties.
- ▶ Every year induction programs are organized for sensitisation of the budding and fresh minds with the institute's different under graduate programs and facilities available for future growth.
- ▶ Case Studies, Assignments
- ▶ Guest Lectures, Seminars,
- ▶ Peer Teaching and Training Sessions

Poster Presentation, Quiz Competition, IT Innovation, Electric Expo, Essay, Elocution competition:

- ▶ Students are motivated to express their views, thoughts and ideas through different methods and modes like making posters, elocution competitions, essay writing competitions, organising exhibitions like electronic expo, IT innovation, science exhibition. All these activities ensure development in cognitive thinking abilities of the students.
- ▶ Poster Presentation, Quiz Competition
- ▶ IT Innovation, Electric Expo,
- ▶ Essay, Elocution competition

E-Resource, E-library, Self-Learning laboratory:

- ▶ With today's technological advancement and upgradation in the knowledge process domain, the reach for authentic and reliable resources of information has become easy to access. The institute has subscribed different and relevant updated information resources like NDLI (National Digital Library Of India), Delnet, Knimbus, Coursera, AWS etc.
- ▶ E-Resource
- ▶ E-Library
- ▶ Self-Learning

Blood Donation, Karate Camp, Fun- Fair, Eco-Friendly Cultural Camp, Charity Programmes:

- ▶ **To sensitize the students in social duties and responsibilities, the institute takes up a frontage steps and organises different programmes like blood donation camp, eco-friendly cultural camp, charity programmes, fun-fairs with a strong social theme, etc.**
- ▶ **For developing social and personal security, the institute organise karate camp and martial sessions both for boys and girls.**

Research and Development: International Conference on On-Going Research (INCON):

- ▶ **The institute also develops students as well faculties in the exploring unknown facts and details through research and development method. It organises a conference every year on a global platform where-in students, faculties, researchers, corporate experts, scholars participate with their thoughts on paper. These thoughts and evaluated results are being discussed in front of the subject experts and other presenters.**

- 
- ▶ The over-all motive behind these methods are to develop the students in 360° form and land them in proper cultivated entity of the society, who can perform its duties and responsibilities with 100% dedication and knowledge.
