POWERPOINT PRESENTATION

PROJECT BY

NAMITA MANOJKUMAR - 38
DEVYANI KALE - 24
ATHARVA PATHARKAR - 21
ABHISHEK CHHETRI - 04

Introduction And Making Of Notebook :-

A book or binder of black, often related pages or which to write especially one used by students to make notes in class.

Process of manufacturing :-

Required no of pages are perforated as desired and stitched with cover pages and gummed. After cutting the pages they are bound and packed white paper made from pulp and cardboards of different weights are required for binding of books . Sheets of paper and paper boards are purchased from the market . The paper and paper board are then cut to the size in the cutting machine .The paper are then stitched and bound with the help of glue and thread etc

Business profitability:-

with total student population of 31.5 crores and counting , India is huge market for notebooks and textbooks . Due to ever increasing student population stationary it at its peak currently.

Brand name - Educa notebooks

Product name - Notebook Raw

material needed :- High quality white paper sheet
Cover sheet and cover pages Ink for printing purpose
Industrial gum Stitching and binding material Boxes
to transport notebooks

•Cost of raw materials used for manufacturing in packing
are wallet• (profit in this notebook business is fully
explain below:-)

in 1 kg of paper 6 notebook will manufacture (A4 size
paper)

•6 no's of notebooks manufacturing course in 1 kg equal
to 60/- (raw materials)

•costing of making one notebook

•Raw materials= Rs 10 per notebook

•cover page = Rs 2/per•Making = Rs 1

•package cost = Rs 0.35

Total cost of raw materials=355 (per 6 notebooks)-

Manufacturing Cost:-

- Labour Cost - 150.82
- Machinery Cost- 899.41₹
- Advertisement Cost- 219.31₹
- Overheads Cost-219.31₹
- Overheads Cost- 179.36₹
- Transporation Cost- 110.15₹

Total manufacturing cost: 1556.05

•Types of costing:- Raw materials -
variable cost: 465₹

Labour cost - Fixed cost: 170.46₹

Machinery - Fixed cost:928.09₹

Advertisement - semi variable cost :
318.17₹

Overheads - variable cost: 183. 46₹

Transportation - variable cost: 120.53₹

MRP

| RS 28 | RS 40 | RS 60 | RS 80 | RS 100 | RS 120 |
|-------------|--------------|--------------|--------------|--------------|--------------|
| 60 PAGES | 100 PAGES | 120 PAGES | 150 PAGES | 180 PAGES | 200 PAGES |

- Selling Price

- Can Be Sold To Wholesale In Rs 28-120₹
- 2000 No Of Notebook Per Day Making Will Lead To Good Profit Margin.

- Profit Margin = $4000 - 6000 = 2000₹$. Profit Per Day

Acknowledgement

It gives me an immense pleasure to present this report on

“INTERNATIONAL WAREHOUSE MANAGEMENT”. The project work has brought out significance of sincere efforts, guidance and support that makes a project successful.

I take this opportunity to acknowledge the guidance and encouragement of all those with whom I have interacted during the course of the project.

I would like to thank my project guide Prof. Ms. Trupti Kadam for her valuable suggestions during the project work.

I would also like to thank our Principal Mam, teaching staff, non-teaching staff of the college for their support and encouragement.

I also take this opportunity to acknowledge unserved support extended to me by the Core Team and Working team of EXIM PUNE

Introduction

Warehouse management encompasses the principles and processes involved in running the day-to-day operations of a warehouse. At a high level, this includes receiving and organizing warehouse space, scheduling labour managing inventory and fulfilling orders. Zoom in closer and you'll see that effective warehouse management involves optimizing and integrating each of those processes to ensure all aspects of a warehouse operation work together to increase productivity and keep costs low. In the most basic terms, warehousing is figuring out where and how to store your products (or their components) before they're needed for assembly, store display, online purchase, or another final destination.

Industry Profile

- ▶ Industry profiles are in-depth documents that give insight into an industry, where it came from, and where it appears to be going. A typical report looks at the industry leaders, forces affecting the industry and financial data for the industry. Industries in the Warehousing and Storage subsector are primarily engaged in operating warehousing and storage facilities for general merchandise, refrigerated goods, and other warehouse products. They may also provide a range of services, often referred to as logistics services, related to the distribution of goods. Logistics services can include labelling, breaking bulk, inventory control and management, light assembly, order entry and fulfilment, packaging, pick and pack, price marking and ticketing, and transportation arrangement. However, establishments in this industry group always provide warehousing or storage services in addition to any logistic services.

Company Profile:

- ▶ Company name :- Exim Shipping & Projects

Exim Shipping and Projects India LLP is a reputed logistics partner for business organizations that are engaged in export and import of goods.

Director of exim shipping & project is SHANKAR KHANDU SHINDE, ASHWINI SHANKAR SHINDE

Export of goods and international trade are the growing signs of business. Trading or supplying of goods to clients abroad is a solemn and a perplexing errand. A small delay or an oversight by the company vibrate its reputation. Goods to be delivered need excessive care and hence must be packed as well as transported safely to their corresponding destinations in rational time.

Exim Shipping and Projects India Ltd. is a company that is engaged in regular consolidation services from ports and airports all over the world. All kinds of international transportation services and allied services are rendered by the company at realistic prices.

Exim Shipping and Projects India Ltd. company provides air, sea, road, project transports and logistics solutions. At times, we combine sea and air freight with truck and barge services to maintain transit times. We offer best solutions for transporting bulk goods, hazardous chemicals, and frequent departures at viable prices and whatsoever conditions.

Moreover, one can also avail a vast choice of destinations from all major ports to minor according to one's need.

Location

COMPLEX-1, Office no 324 Floor, Chinchwad Gaon Rd, Shubhashri Residency, MIDC, Akurdi, Pimpri-Chinchwad, Maharashtra 411035

Objectives of the study:

- ▶ To know about the International warehouse management systems. Increase knowledge.
- ▶ To understand international warehouse process, risks, storage, transport etc.
- ▶ Understand the growing need for better project management, especially for information technology projects.
- ▶ In detailed study of the establishment of the company.
- ▶ To study about transportation of the company.

Transportation

II] Air

- Exim Shipping and Projects India Ltd. Offers regular consolidation services to and from all major airports across the globe. Time is said to be a crucial factor in business. One can build up one's reputation by promising timely delivery of goods all over the world with Exim Shipping and Projects India Ltd. Services. As a versatile and an experienced company in worldwide transportation, Exim Shipping and Projects India Ltd. Relish the support of most airline companies, affording modest prices for goods transportation.
- We owe to transport perishables, hazardous materials or any other commodities safely and carefully.
- Our Air freight services Include part/full charter, consolidation, back-to-back and courier.
- As an IATA licensed air cargo agent, we are associated with all the major airline carriers. We provide international services like FEDEX and DHL in Pune. We maintain working relationships with all air freight carriers who keep us informed about the best, quickest and most economical routes to different places
- Our air freight services include Multi modal Transport Operation, Air cargo Handling, consolidation services, we provide trucking services, warehousing, packing, custom clearance for both import and export of goods (we also arrange freight forwarding services from anywhere in the world to major Indian airports by FedEx In Pune. Same applicable for exports), we provide pre and post shipment documentation. Our services do not end once the shipment is dispatched in case of any claims we guide the customers on the entire process.

III] Road Transport

- Are surpassingly convenient with internal connectivity all over India. They consider one's bulk consignment and carriage trade an appropriate mode of transport. Keeping one's business routine in mind one's logistics are managed timely and efficiently.
- They believe in maximum automation of systems and computerization. With highly advanced technology systems, at the same time one can keep a track and also trace one's consignments as they are transported from place to place.
- They specialize in road cargo delivery of all sizes of consignments and all types of goods. With Exim Shipping and Projects India Ltd., one can be sure that one's materials are in safe hands. They ensure one's cargo is insured against accidents and other perils. With our global coverage and local knowledge, we can be the best choice for transportation. Our aim is to carry one's goods to and for from various destinations safely and promptly, thus complementing one's business needs so that one can focus on core activities.

Documents Required for Import & Export

- ▶ • Bill of Lading/ Airway Bill
- ▶ • Commercial Invoice cum Packing List
- ▶ • Suggest an export
- ▶ • Shipping Bill / Bill of Export
- ▶ • Bill of Entry

III] Water

- If one is not best with time, and is looking for cost-effective services, one can choose our sea-freight services. If one's cargo consists of bulk loads or dangerous and hazardous goods, we suggest sea freight transport.
- "Best Sea Freight Services In Pune."
- Depending on the kinds of goods one loads, there is a considerable amount of paper work and legal formalities to be completed for sea freight.
- It has become strict and mandatory to produce import license, export documents, custom clearance papers and country-specific compliance of regulations. Exim Shipping and Projects India Ltd. services include help and support in preparation of documents and all necessary formalities.
- Along with one's freight, our strong network handles one's consumer's consolidation services with equal efficiency. Other services include full-container load, part container load, non-container load and break bulk.
- They are MTO registered with D.G. shipping and our MTO is also registered with Federal Maritime Corporation for export shipments to USA. Our bill Lading is approved by DGCA India, hence, one can avail of Multi-Modal Transport with a single document. This results in an overall reduction in costs and delays and better, improved service.
- The authority to issue our own bill of lading enables us to maintain complete secrecy. It also implies the following benefits:
 - A contract for the Transportation of Goods by Multi-modal Transport Negotiable document unless it is marked non-negotiable by the consignor
 - A document of title on the basis of which its holder can take delivery of the goods covered by it.
- With this special authority, we specialize in door-to-door delivery of goods without hassles. Together with our global partners like DHL in Pune and FedEx in Pune, we handle large quantity on global basis or a specific requirement to any destination at all times.

About Warehouse

- ▶ Warehouse is an allied facility when logistics comes to one's mind. An expert team at Exim Shipping and Projects India Ltd. analyses and examines one's complete supply chain and operation process. Accordingly, they offer warehousing solutions with flexible facility layout and design, customized to one's needs. They provide the labour and equipment to manage one's daily operations. They make informed decisions and recommendations to help achieve one's goals.
- ▶ They serve multiple-clients from all industry sectors. They have the ability to fast-track a particular process or make client required changes at a short notice. You can choose from dedicated warehousing or shared environment, depending on the size and type of goods and the period for which they have to be accommodated.
- ▶ Now space, labour and equipment are more flexible than ever with their multi-client warehousing system. Their warehousing facility adds value to your operation process, as part of our single source one-stop integrated solutions. Our technology systems ease the communication process, introduce transparency and visibility in transactions and cut the cycle-time of the process substantially, spelling real time gains in revenue.

- ▶ Three software
- 1. 1.NetSuite
- 2. Royal systems
- 3. SAP

NETSUITE

- ▶ Warehouse Management System (WMS) optimizes day-to-day warehouse operations using industry-leading practices, such as mobile RF barcode scanning, defined strategies for put away and picking, task management, return authorization receipts and cycle count plans. With hundreds or even thousands of SKUs to handle, often across multiple locations, warehouse management can quickly become a manual, chaotic and inefficient process if you're relying on spreadsheets – or worse, pen and paper. NetSuite WMS eliminates manual processes, allowing you to minimize handling costs, run your warehouses more efficiently and consistently meet customer expectations. Oracle / NetSuite NetSuite Warehouse Management Manage warehouse operations better

What is NetSuite Warehouse Management?

- ▶ NetSuite Warehouse Management System (WMS) optimizes day-to-day warehouse operations using industry- leading practices, such as mobile RF barcode scanning, defined strategies for put away and picking, task management, return authorization receipts and cycle count plans. With hundreds or even thousands of SKUs to handle, often across multiple locations, warehouse management can quickly become a manual, chaotic and inefficient process if you're relying on spreadsheets — or worse, pen and paper. NetSuite WMS eliminates manual processes, allowing you to minimize handling costs, run your warehouses more efficiently and consistently meet customer expectations.

Research methodology

- ▶ A proper implementation of international warehouse management system ensures the product is stocked up at all times for successful support function to fulfil the demands. Research Methodology is a way to systematically solve the research problem. The Research Methodology includes the various methods and techniques for conducting a Research. “Marketing Research is the systematic design, collection, analysis and reporting of data and finding relevant solution to a specific marketing situation or problem”, G. Schlesinger and M. Stephenson in the encyclopaedia of Social Sciences define Research as the manipulation of things, concepts or symbols for the purpose of generalizing to extend, correct or verify knowledge making for its advancement. The purpose of research is to discover answers to the Questions through the application of scientific procedures. Our research report has a specified framework for collecting data in an effective manner. Such framework is called “research Design.

SUGGESTIONS

1. Lack of Knowledge on Exchange Rates

If you don't know the exchange rates when trading internationally, you are exposed to potential currency fluctuations and are restricted when planning ahead or trying to get the best price.

2. Lousy Relationship With Customs Officials

Don't underestimate the importance of a good relationship with customs officials, transportation folks and customs brokers. And never assume you know more than they do!

3. Making a Bribe

If you are conducting business in a foreign market, you must be familiar with and comply with the Foreign Corrupt Practices Act (FCPA). You should learn about the Foreign Corrupt Practices Act and discover how to avoid or handle bribery disputes.

4. Failure to Conform to Packaging, Marking, and Language (Localization) Laws

What are the laws of the country you are entering? Consult with your transportation specialist and your customer and then compare notes

Conclusion

- ▶ To maintain competitiveness, customer requirements are met consistently, which are achieved by, among others, enabling of more flexible processes with deployment of radio-frequency technology, improved scope of delivery with provision of same day delivery services, shorter delivery lead time especially airfreight mode, increased customer satisfaction with less complaints, inventory visibility with higher inventory accuracy and cost efficiencies with higher labour productivity while minimising inventory investment which includes inventory handling. Procedures have been established to monitor and measure WMS activities.
- ▶ It is concluded that WMS has a positive impact on operations measures. Investments in WMS enable the distribution centre to compete successfully against other rivals in the market. To adopt the MIS, wireless barcode embedded WMS in specific, it is necessary to have corporate culture that supports complex operational activities. BPR has to be enacted as such that the WMS and associated physical operations are well integrated. WMS implementation was crucial in bringing about reduction of cost in operational level, and effective management in management level, as well as improvement of the company's competitiveness in strategic level. Companies that manage warehousing of their products are expected to
