## Report for PHN Field Visit to PHN Technology Pvt. Ltd.

<b>Date</b>	: 29 <sup>th</sup> August 2025
<b>Time</b>	: at 12:30 PM onwards
<b>Venue</b>	: <b>PHN Technology Pvt. Ltd</b>
<b>Collaboration (If any)</b>	: --
<b>Coordinator</b>	: Dept. of Computer Science and Applications

### Introduction:

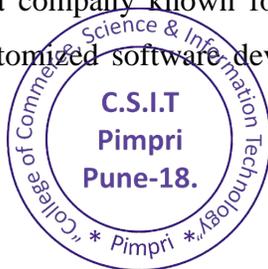

On 29th August 2025, a field visit was organized for the Second Year (SY) and Third Year (TY) students to **PHN Technology Pvt. Ltd.**, a forward-thinking company operating at the intersection of software development, robotics, artificial intelligence (AI), and education. This visit aimed to expose students to cutting-edge technological advancements and their practical applications in the industry and academia.

### Objectives:

- 1 To provide practical exposure to students on real-world applications of Robotics, Artificial Intelligence, and IoT technologies.
- 2 To understand how customized software solutions are developed and deployed in industry.
- 3 To learn about academic-industry collaboration, especially in setting up advanced technology labs in premier institutions like IITs and NITs.
- 4 To observe how innovation and R&D play a role in solving industrial challenges.
- 5 To inspire students to pursue careers in emerging tech fields by interacting with professionals and exploring live project

### Detailed Report:

On 29th August 2025, a field visit was organized for the Second Year and Third Year students to **PHN Technology Pvt. Ltd.**, a company known for its innovative work in Robotics, Artificial Intelligence (AI), IoT, and customized software development. The objective of this visit was to

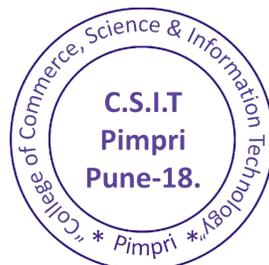

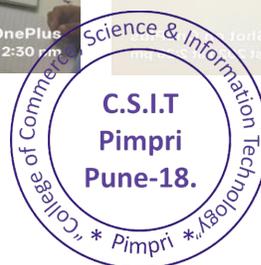

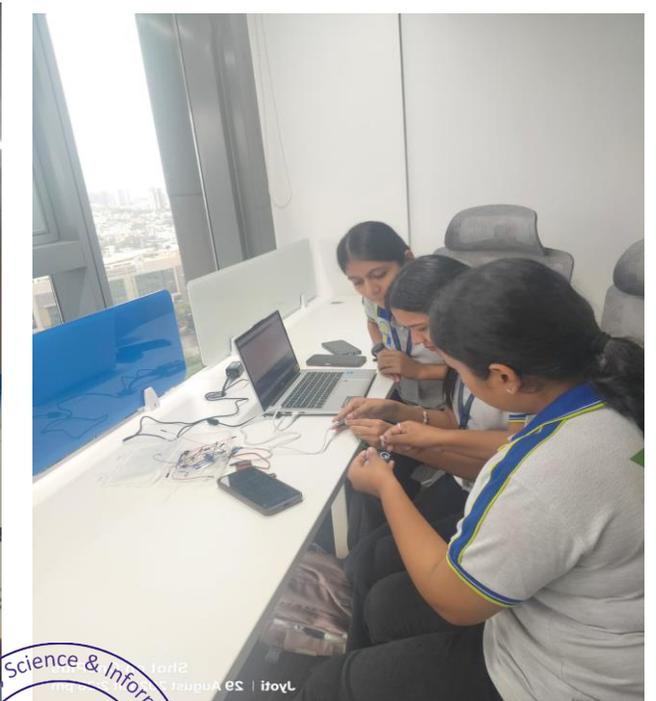

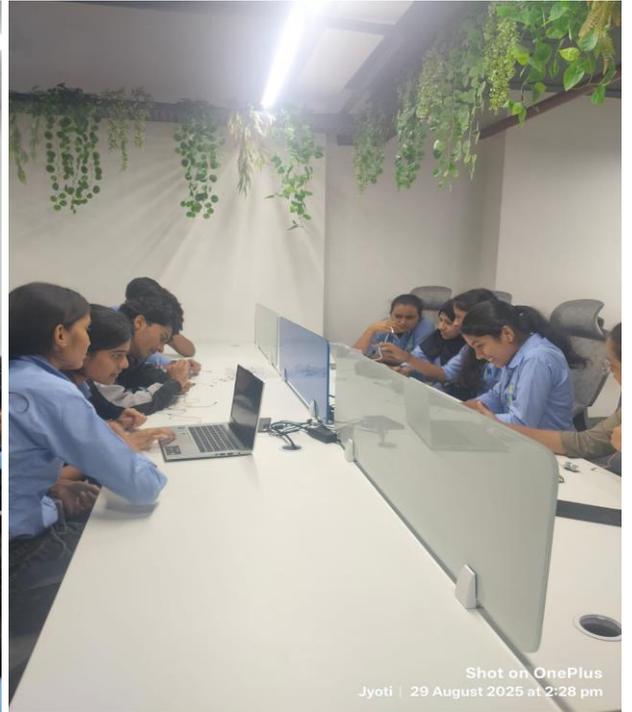

provide students with practical exposure to cutting-edge technologies and to understand their real-world applications in industries and academic environments. PHN Technology offers a range of services including **industrial automation through AI-powered robotics, custom software solutions, and educational lab setups** in institutes like **IIT Bombay, IIT Patna, IIT Jammu, and NIT Manipur**. The company is focused on bridging the gap between theoretical knowledge and industrial needs by fostering skill-based, practical learning environments.

During the visit, students were introduced to various robotic systems, AI applications, and IoT devices used for automation. They also explored how PHN collaborates with academic institutions to set up advanced labs and provide training modules that prepare students for industry demands.

The visit was highly beneficial as it allowed students to interact with industry professionals, observe live demonstrations, and understand current technological trends. It also inspired them to think innovatively and consider careers in high-tech domains.

### Outcomes:

- 1 Students received hands-on exposure to emerging technologies such as Artificial Intelligence, Robotics, and IoT, enhancing their understanding of real-world applications.
- 2 They observed AI-driven robotic systems used in industrial automation, strengthening both their conceptual and practical knowledge.
- 3 The visit helped them understand how customized software solutions are developed to address specific industrial and business needs.
- 4 Students gained valuable insights into how industry collaborates with academic institutions to support advanced learning.
- 5 The partnership of PHN Technology with institutes like IIT Bombay, IIT Patna, and NIT Manipur highlighted the importance and impact of academic-industry collaboration.
