Report of Event “Career Guidance & Skill Development Workshop”

Date	: 26th September 2025
Time	: 5:30 PM Onwards
Venue	: Online Mode
Collaboration (If any)	:
Coordinator	: Dr.C.D.Soanwane, Asst Prof Dnyanesh Mandale

Introduction:

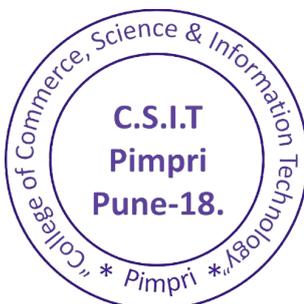

ASM's CSIT - College of Commerce, Science and Information Technology successfully hosted an exclusive **Career Guidance & Skill Development Workshop**. The event was organized by **Grad Guru** in a collaborative effort with **E-Cell IIT Hyderabad** and **IPA-SF**. The primary aim was to bridge the gap between academic learning and industry expectations, ensuring students are well-equipped and confident as they approach their professional careers. The workshop was conducted online on **26 September 2025**, commencing at **05:30 PM**. The attendance screenshot provided suggests active participation, with students logging in for the online session.

Objectives:

- 1 To guide students in understanding different career pathways with current industry insights for informed decision-making.
- 2 To equip students with effective resume-building skills and knowledge of ATS optimization.
- 3 To enhance students' interview skills, soft skills, and overall confidence for job selection processes.
- 4 To provide practical placement guidelines and strategies for long-term career growth.
- 5 To recognize student participation with an ISO-certified participation certificate.

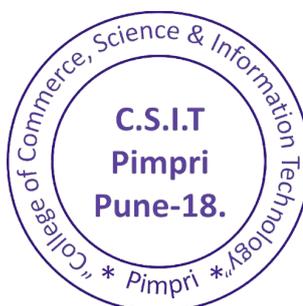

Detailed Report:

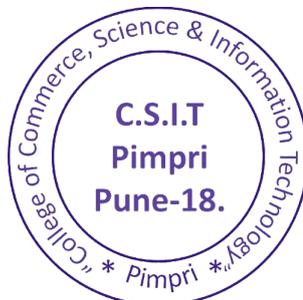

The workshop was a comprehensive session delivered virtually to maximize student reach. The content was structured around the four primary key takeaways highlighted in the notice, ensuring a holistic development approach:

- **Career Pathway & Industry Insights:** The session began by mapping out the current job market landscape. Experts from Grad Guru and the collaborating organizations detailed emerging roles, essential industry sectors, and the specific skill gaps prevalent today. This segment offered students a realistic view of what employers are currently seeking.
- **Resume Building & ATS Optimization:** A practical segment focused on crafting powerful resumes. The trainers provided step-by-step guidance on structuring resumes and, crucially, how to tailor keywords and formatting to ensure they are successfully parsed and ranked by Applicant Tracking Systems (ATS), which are standard tools used by recruiting firms.
- **Interview Preparation & Skill Enhancement:** This module focused on boosting students' confidence and communication abilities. It covered different types of interviews (HR, Technical, and Behavioral), common interview questions, and effective techniques for articulation and body language. Emphasis was placed on developing critical thinking and problem-solving skills required for modern job roles.
- **Placement Guidelines & Career Growth Strategies:** The final section provided actionable advice on navigating campus placements, including understanding offer letters, negotiation ethics, and preparing for pre-placement talks. Furthermore, the experts outlined strategies for continuous learning, networking, and setting professional milestones for long-term career progression.

The presence of the organizers, including representatives from **E-Cell IIT Hyderabad** and **IPA-SF**, added significant value and credibility to the guidance provided. The online format, facilitated by the shared link, ensured accessibility for the students, as evidenced by the attendance screenshot showing a number of connected participants (e.g., Naresh, Pavan, Prince, Mahi, Sejal, etc.). The engagement levels appeared to be positive, indicating that the students benefited from the focused curriculum.

Outcomes:

- 1 Students gained clear understanding of career options and current industry expectations.
- 2 Students learned to prepare ATS-optimized, professional resumes for better shortlisting.
- 3 Students developed confidence and effective skills to face interviews successfully.
- 4 Students acquired practical knowledge of placements and long-term career planning.
- 5 Students received an ISO-certified participation certificate enhancing their professional profile.
- 6 Students gained clear understanding of career options and current industry expectations.

Certificate of Participation

This is to certify that

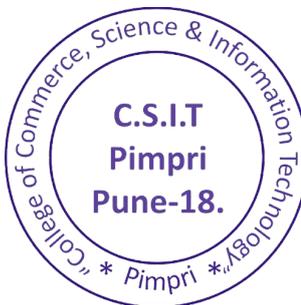

Dr.C.D.Sonawane

for participation in the **Career Guidance Session** organized by "E-Cell IIT Hyderabad"
in association with Gradguru Innovations conducted on 9/26/2025
We congratulate you on this achievement and wish you the best.
