## Report of Faculty Development Program on "AI in Academia: Transforming Teaching, Learning and Assessment"

**Date** : 10.06.2025 To 14.06.2025  
**Time** : 2:30 Pm To 4:30 Pm  
**Venue** : ASM-CSIT Mini Auditorium  
**Collaboration (If any)** : --

### Introduction:

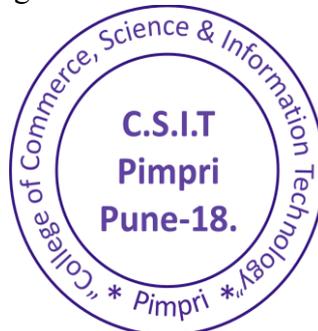

The Faculty Development Program (FDP) on "AI in Academia: Transforming Teaching, Learning and Assessment" commenced on June 10, 2025, at the Mini Auditorium, from 2:30 PM to 4:30 PM. This five-day program, organized by the College of Commerce, Science and Information Technology, Pimpri, Pune-18, aims to equip faculty members with essential knowledge and practical skills in leveraging Artificial Intelligence for enhanced educational practices. Day 1 began with a formal inauguration ceremony, followed by an insightful session led by Ms. Sarika Shinde focusing on the fundamentals of AI and its diverse applications within the educational landscape. The agenda for the day included welcoming guests, Saraswati Pooja, felicitation, an inaugural address by the Principal, Dr. Lalit Kanore Sir and guidance by Dr. D.D Balsaraf Sir followed by the presentation and a hands-on session.

### Objectives:

- 1 To introduce participants to the foundational concepts of Artificial Intelligence, including distinctions between Strong AI, Weak AI, and Doctrina AI.
- 2 To familiarize faculty with various AI tools and their potential applications in teaching and learning.
- 3 To explore how AI can be utilized for creating engaging educational content and interactive experiences.
- 4 To demonstrate practical AI tools such as Eleven Labs for audio, VEED IO for video, and Duolingo for language learning.
- 5 To provide insights into AI-powered platforms like Magic School AI, Quizee, and Gamma AI for academic purposes.

### Detailed Report:

**Day 1:-**It focused on "AI Fundamentals and Applications in Education," with Ms. Sarika Shinde as the resource person. The session commenced at 2:30 PM with a presentation covering key AI concepts such as Strong AI, Weak AI, and Doctrina AI. Practical demonstrations were provided for tools like **Eleven Labs** for audio generation, **VEED IO** for video editing, and **Duolingo** for language learning. Further exploration included educational platforms like **Magic School AI, Quizee, and Gamma AI**. Participants were also introduced to Futurepedia for discovering new AI tools and learned about the utility of Gemini and MEQR, including preparing content for scanners. The hands-on session from 3:30 PM to 4:30

PM allowed faculty to interact directly with these tools, reinforcing theoretical knowledge with practical experience.

**Day 2 :** The session explored various aspects of content creation, including web, visual, social media, audio, and interactive content, providing faculty with practical tools and insights to enhance their instructional materials and online presence. Resource person, Prof. Shrikant Mahajan, focused on "AI-powered Content Creation." The session, from 2:30 PM to 3:30 PM, covered generating various content types: web, visual, social media, audio, and interactive content, along with future trends. Participants learned about the uses of the **BRISK** teaching tool, **Diffit**, and **Napkin AI** for creating diverse educational materials. Practical utilities such as Temp Mail and Notion AI were also introduced to aid in content management and testing. The hands-on session from 3:30 PM to 4:30 PM provided an opportunity for faculty to experiment with these AI tools and apply content creation strategies to their teaching.

**Day 3:** On June 12, 2025, Day 3 of the Faculty Development Program focused on the critical theme of "AI in Assessment," held from 2:30 PM to 4:30 PM at the Mini Auditorium. Prof. Parmeshwar Laghane led this session, addressing a pertinent question in modern education: the role of AI in assessment practices and its implications for the future of human teachers. The session provided an in-depth exploration of how AI can be leveraged for various assessment types, particularly formative assessments, by demonstrating the capabilities of platforms like Quizzes AI and Kahoot app's AI-driven features for lesson modes and interactive videos. The presentation addressed the question of whether AI will replace human teachers and focused on AI's role in assessment. Key tools covered included **Quizzes AI** for formative assessments and the **Kahoot app**, specifically its AI Lesson mode and interactive video features, for engaging and dynamic evaluations. The hands-on session, from 3:30 PM to 4:30 PM, allowed faculty to actively create and experiment with assessments using these AI platforms, fostering practical application of the concepts discussed.

**Day 4 :** The Faculty Development Program, held on June 13, 2025, from 2:30 PM to 4:30 PM, shifted its focus to "AI for Research and Literature Review" at the Mini Auditorium. Prof. Rushi Durge facilitated this crucial session, highlighting how artificial intelligence is revolutionizing academic research processes, particularly in the daunting task of literature review. The session covered the evolution of research in the AI era and introduced a suite of advanced AI tools designed to assist researchers at every stage, from information gathering and organization to drafting and paraphrasing. Prof. Rushi Durge as the resource person, centered on "AI for Research and Literature Review." The presentation (2:30 PM - 3:30 PM) covered the evolution of research with AI and introduced various tools. This included information on **Research Rabbits** and Iris AI for literature discovery, and **Sourcely** and **Zotero** for reference management. Participants also learned about Chat PDF and **NotebookKLM** for document analysis, and paraphrasing tools like **Quillbot** and **Ref N**

**Write.** Advanced AI platforms such as **Julius AI**, **Grock**, and **Stealth Write** were also discussed. The hands-on session (3:30 PM - 4:30 PM) enabled practical engagement with these research-centric AI tools.

**Day 5 :**The final day of the Faculty Development Program, June 14, 2025, concluded with a highly anticipated session on "Integrating AI into Your Teaching Workflow: From Planning to Evaluation," held from 2:30 PM to 4:30 PM at the Mini Auditorium. Mr. Sujeet (CTO, NextGenInnov8) served as the resource person, bringing extensive expertise to guide faculty through the practical integration of AI into every phase of their teaching journey. This session provided a holistic overview, beginning with a fundamental understanding of AI, progressing to its transformative impact on education, and emphasizing crucial aspects like prompt engineering, ethical considerations, and best practices for leveraging AI tools like **ChatGPT**, **Canva AI**, and **Genspark**. Day 5's session, led by Mr. Sujeet, focused on "Integrating AI into Your Teaching Workflow." The presentation (2:30 PM - 3:30 PM) began by defining AI and discussing its educational transformation. A significant portion was dedicated to prompt engineering, explaining how AI assists teachers using tools like **ChatGPT**, **Canva AI**, and **Genspark**. The anatomy of a good prompt, along with cautions, ethics, and best practices, were thoroughly covered. The hands-on session (3:30 PM - 4:30 PM) provided practical opportunities to apply prompt engineering techniques and experiment with AI tools for various teaching tasks, from planning to evaluation.

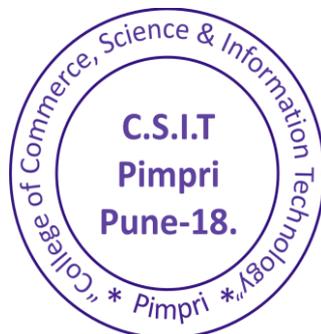

**Conclusion:**

The five-day Faculty Development Program on "AI in Academia: Transforming Teaching, Learning and Assessment" successfully concluded, providing participants with a comprehensive understanding of AI's role in modern education. The program progressed from foundational concepts and applications to hands-on sessions on AI-powered content creation, assessment, and research methodologies. The final session highlighted seamless AI integration into teaching workflows, emphasizing prompt engineering, ethics, and best practices. Faculty gained invaluable skills and a forward-thinking perspective, empowering them to leverage AI tools responsibly across lesson planning, content development, evaluation, and research. This FDP significantly enhanced participants' digital literacy and preparedness for the evolving AI-driven educational landscape.

**Outcomes:**

- 1 Attendees demonstrated proficiency in utilizing tools like the BRISK teaching tool, Diffit, and Napkin AI for specific content generation tasks.
- 2 Faculty members understood how interactive video can be incorporated into AI assessments to cater to diverse learning styles.
- 3 Participants effectively explored and understood the capabilities of Research Rabbits and Iris AI in finding and analyzing relevant academic papers.
- 4 Participants demonstrated skills in utilizing Canva AI and Genspark to design visually appealing and AI-enhanced teaching materials.
- 5 Faculty members were equipped with the knowledge and confidence to ethically and effectively leverage AI as a powerful teaching assistant.
